2. Whether the figures have been audited, or reviewed and in accordance with which standard (e.g. the Singapore Standard on Auditing 910 (Engagements to Review Financial Statements), or an equivalent standard)

The figures have not been audited or reviewed by our auditors. However the opening balances for FY 2005 is expected to be qualified as the auditors report for the financial year ended 31 December 2004 expressed a disclaimer of opinion.

3. Where the figures have been audited or reviewed, the auditors' report (including any qualifications or emphasis of matter)

Not applicable.

4. Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied

The accounting policies and method of computation have been applied consistently except as disclosed in note 5 of this announcement

5. If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change

For the financial year ended 31 December 2005, the adoption of all the new and revised FRS has no material impact on the results of the Group except as disclosed below:

i) FRS 102 Share-based Payment

FRS 102 *Share-based Payment* requires the recognition of equity-settled share-based payments at fair value at the date of grant and the recognition of liabilities for cash-settled share-based payments at the current fair value at each balance sheet date. Prior to the adoption of FRS 102, the group did not recognise the financial effect of share-based payments until such payments were settled.

In accordance with the transitional provisions of FRS 102, the accounting standard has been applied retrospectively to all grants of equity instruments after November 22, 2002 that were unvested as of January 1, 2005, and to liabilities for share-based transactions existing at January 1, 2005. The accounting standard therefore applies to share options granted in 2004 and 2005.

For 2004, the change in accounting policy has resulted in a net decrease in profit for the year of \$1.9 million. The balance sheet at December 31, 2004 has been restated to reflect the recognition of a share options reserve of \$1.9 million.

For 2005, the impact of share-based payments is a net charge to income of \$0.81 million. At December 31, 2005, the share options reserve amounted to \$2.7 million.

The share-based payments expense has been included in staff cost line of the profit and loss statement.

ii) FRS 103, Business Combinations

FRS 103 requires goodwill acquired in a business combination to be measured after initial recognition at cost less any accumulated impairment losses. Therefore, the goodwill is not amortised and instead tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired. The Group has previously under FRS 22 amortised goodwill systematically over its useful life of 20 years. The effect, of the change to the year profit and loss statement, had the group continued to amortise the remaining goodwill under FRS 22, would have amounted to \$848,000.

6. Earnings per ordinary share of the group for the current period reported on and the corresponding period of the immediately preceding financial year, after deducting any provision for preference dividends

Fully diluted earnings per ordinary share is computed based on the weighted average number of shares during the period adjusted for the effect of all potential dilutive ordinary shares of 960,935,417 (31 December 2004: 952,369,850) of \$0.025 each.

8. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. The review must discuss any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors. It must also discuss any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on

Following the announcements in February 2005 on the termination of the AMS contracts and the subsequent investigation by the Commercial Affairs Department, the Group's operations were negatively impacted. Much of the year was spent on unraveling the complex structure of the Group, streamlining operations and reducing overheads.

In light of the above, the Group incurred a loss after tax of S\$9.9 million (after minority interests) for FY2005, after taking into account charges of S\$4.3 million for impairment of goodwill and investment and S\$0.8 million for expensing of share options in compliance with new accounting standards FRS 103 and FRS 102.

Both the core businesses of AMS and DMS improved in the 4QFY05. Turnover increased by S\$1.7 million (10.3%) for AMS and S\$9.5 million (19.0%) for DMS. However, 4QFY05 showed a net loss of S\$0.6 million (after minority interests) due to the need to make the provision and goodwill impairment charges as mentioned above.

In connection with cash flow, the Group continues to operate under working capital constraints.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

As stated in note 10 to the Q3 announcement, the Group maintains its guidance of a net loss for the current financial year.

10. A commentary at the date of the announcement of the competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months

Due to the complex structure of the Group, the restructuring exercise initiated in FY2005 will continue. The streamlining and cost-cutting measures taken in FY2005 will benefit the Group in FY2006. Both the AMS and DMS businesses will continue to improve at revenue and operating levels.

In separate announcements today, the Group also released details of the proposed Rights Issue and of its proposed acquisition of the AMS business of Semitech Electronics Limited.

In light of the above and barring any unforeseen circumstances, the Group will return to profitability in FY2006.

Segment assets and capital expenditure: Segment assets and capital expenditure are analysed based on those assets used by a segment. Capital expenditure includes the total cost incurred to plant and equipment, and any intangible assets.

During the year, South Asia and South Pacific region's revenue has increased by \$6.0 million and \$7.8 million respectively. The increase revenue is mainly due to higher volume of out warranty services as a result of continued expansion of AMS network and also more DMS activities undertaken during the year.

Please refer to notes 8 and 10 for other factors.
